EDUCATION

Bachelor of Technology (BTech) in Information Technology

October Technological University | 2024 – 2028

International Diploma in Information Technology

Pearson BTEC Level 3 IT Diploma | 2022 – 2024

- Acquired foundational knowledge in IT infrastructure, including networking, system administration, and cybersecurity principles.
- Developed skills in technical documentation, ensuring clear and accurate communication of technical processes and systems.

Diploma of Applied Technology (High School Diploma)

WE School for Applied Technology | 2021 – 2024

- Specialized in Web development & Programming
- Engaged in coding competitions and collaborative projects to refine skills and build technical expertise.

EXPERIENCE

Creative Children Community (3C)   **Jan 2025 – PRESENT**

Programming Instructor for Kids

- Delivering information to children in a simplified and engaging way.
- Teaching various skills and technologies such as MIT Scratch, MIT App Inventor, Python, HTML, CSS, JavaScript, and Flask.

Telecom Egypt   **May 2023 – June 2023**

Software Engineering Training

- Gained practical knowledge of the Software Development Life Cycle (SDLC) and its application in real-world projects.
- Enhanced problem-solving skills for business, understanding how software solutions can address complex business challenges.
- Developed soft skills, including teamwork, communication, and time management, essential for effective collaboration in a corporate environment.

Samsung Innovation Campus (SIC)   **Abril 2022 – August 2022**

Coding & Programming Training

- Strengthened problem-solving skills and gained a diverse skill set in various programming languages.
- Explored low-level programming with C.

SKILLS

- **Programming Languages:** Python, TypeScript, JavaScript (Node.js), PHP, C/C++.

- **Web Development:** HTML, CSS, SASS, Bootstrap, Tailwind CSS, React.js.

- **Frameworks:** Express.js, Laravel.

- **Databases:** MySQL, MongoDB, SQLite.

- **API Development:** RESTful APIs.

- **Version Control Systems:** Git/GitHub.

- **Concepts:** Object Oriented Programming (OOP), SOLID, Algorithms, Data Structures.

RELEVANT PROJECTS

- **Qaderoon Website**: Full-Stack Web Application: Designed and developed the website for **Qaderoon Youth Foundation (QYF)**, a volunteer organization under the **Ministry of Youth and Sports**, using React and Tailwind CSS for a modern, responsive frontend and Express.js for robust backend functionality.

- **TEDx TabaryElHegaz Website:** Developed the official **TEDx Tabary Elhegaz** website Event & Community Platform using Next.js and Tailwind CSS, ensuring a fast, SEO-optimized, and responsive user experience. Implemented dynamic event updates, speaker profiles, and a real-time countdown to enhance user engagement.

- **Shopsy - E-commerce Frontend:** Designed and developed **Shopsy**, a responsive e-commerce frontend using React, Tailwind CSS, and Vite, featuring dark mode, interactive UI, and smooth animations with react-slick and AOS.

- **Competitions Management System:** Developed a Laravel application that provides a robust and user-friendly platform for managing competitions, registrations, and results. The system is designed with a modular structure and clear user roles, catering to both participants and event organizers, ensuring seamless event management.

CERTIFICATES

- **CS50T: Understanding Technology:** Harvard University - *Issued June 2024*
- **Front-End Development**: Meta – *Issued Oct 2023*
- **JavaScript Essentials**: Cisco - *Issued Nov 2023*
- **CS50x: Introduction to Computer Science**: Harvard University – *Issued May 2023*

VOLUNTEERING EXPERIENCE

Qaderoon Youth Foundation (QYF)   **Jan 2025 – PRESENT**
Head of IT Committee

TEDx Youth Tabry Elhegaz   **Nov 2024 – PRESENT**
Vice head of IT Committee
